Redfield Edge Primary School

'Striving to be the best version of ourselves'

Photos of the week – Brand new interactive whiteboards for Y4 and Y6 have arrived - the last two to be fitted!

Hazel Class

Hazel Class had such a lovely morning visiting Oldland Common Tabernacle Church on Tuesday, luckily the weather stayed dry for our walk there! When we arrived we sketched the church, had a tour inside including some juice and a biscuit then we asked James the Minister some questions, and even had the chance to listen to the organ being played.

Thank you to Mrs Williams for organising the morning and the volunteers for making us feel so welcome.

Holly Class

This week we have enjoyed the story 'Pirates Love Underpants'. We have been busy in class creating and describing our prize pants! And making our very own Pirate hats! ☺

Oak Class

Year 6 have been hard at work weeding the gardening area this week. They also constructed some bean arches and tidied up the Holly class borders. As well as this, they did some amazing observational drawings of plants, leaves and flowers.

Thought of the week

'Happiness is an inside job'

Maple Class

Week 5 is done in Maple Class and it has certainly been another busy one with lots of excellent learning.

The children have continued to work hard both in their assessments and in their writing. They have applied themselves well to a range of subjects and shown hard-working attitudes, great to see!

We have been focusing on using our topic work in writing this week. The children have been using the information they have found out about rainforests and applied this to a non-fiction piece. Some of these were very colourful and informative!!

The children also began their tennis sessions in PE this week. We began with some key racquet skills and built up to short rallies across the net. It was great to see the progress of many, thinking about the importance of their racquet and body position in completing the shots. Can your child tell you some of the shots you can make in Tennis?

Finally, we explored our relationships with objects/items and communities as well as people. The children were provided with a traffic light system of 'Safe, I'm not sure or unsafe' (Green, Amber, and Red). These colours were then used to judge their opinions on statements provided. Some excellent discussions were had and some very interesting points made by a range of children.

Mr. Monks

PE Kits

Thank you to all of our families who have ensured full PE kits are in school. There has been a big improvement over the past couple of weeks with children appropriately dressed and ready to learn.

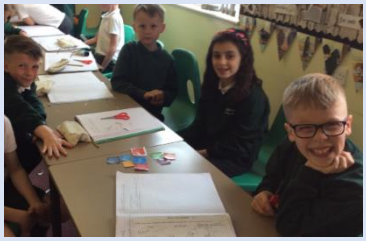
Could I ask that all families spend some time over the half term week coming up, checking that their child's P.E. kit still fits them? We have a number of children complaining of daps / trainers that are too small. Thank you ☺

Beech Class

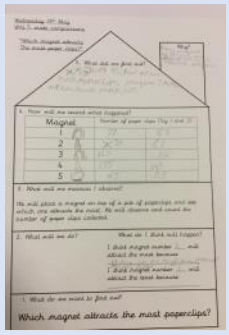
To conclude their Reduce, reuse, recycle topic, Beech Class are conducting an enquiry to find out what happens to classroom rubbish if it is put in the Earth. They put 6 different types of classroom rubbish into an egg box and buried it in the school garden. They will retrieve the egg box from the 'landfill' in a weeks' time. They have made predictions about what they think might happen.

Willow Class

In Jigsaw this week, we were learning how to keep safe online, especially when considering using apps. Miss Roberts tricked us with a pretend 'new app' – lots of us thought it was real and safe to use! We learned about just how large the internet is and how we cannot trust everything that is on there. We found out 9 top tips to keep safe and debated in groups about which was the most important.



In Science, we enjoyed investigating how many paperclips a magnet would hold. We were surprised that our predictions were not always correct!



Pine Class

This week we had a special visitor for the fire service. An Avon and Somerset Fireman taught Pine Class all about how to stay safe around fire. We learnt how to STOP, DROP and ROLL, all the different responsibilities a firefighter has and what all of his protective equipment does to keep him safe. We linked this to our Great Fire of London topic when it was a very different story!

Year 6 – Residential Camp to Weymouth

The children in Year 6 have been incredibly excited this week as we creep closer and closer to our departure on Sunday. We are off to Weymouth to stay at the Osmington Bay PGL Activity Centre for 3 nights and 4 days. Next week's Newsletter will have plenty of photos of what we get up to! ☺
