

Vocabulary:

Term 5- Green Fingers

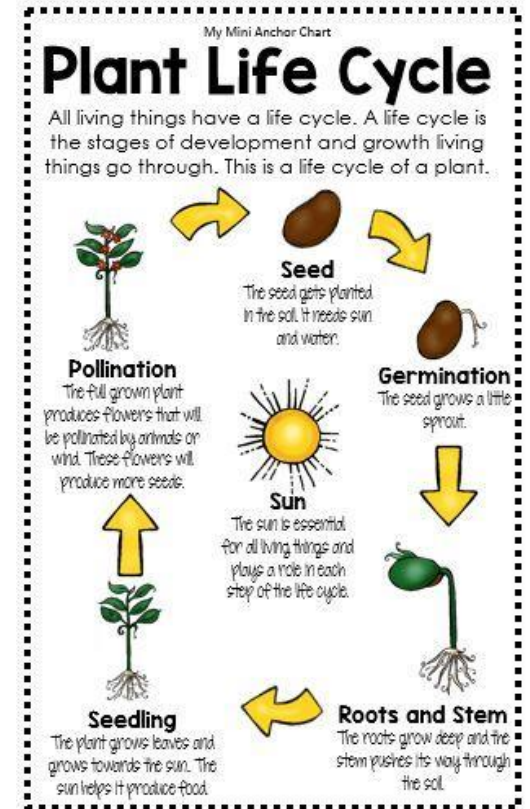

Our Key question- How do plants grow?

Germination	The development of a plant from a seed.
Seedling	A young plant.
Sprout	A shoot of a plant.
Blossom	When a tree or a bush produces flowers.

Vincent Van Gogh-

Is a famous painter using nature as his inspiration.

As he painted during the day he relied on sunlight so began to paint using quick strokes.

Did you know ...?

The leaves of a tree are green most of the time, but they can come in many colours, shapes and sizes. The leaves take in sunlight and use water and food from the roots to make the tree grow, and to reproduce.
